Job Overview:

Excellent opportunity for an MSc Statistics or MSc in Mathematics (or equivalent) post graduate to commence their career as a Biostatistician in the pharmaceutical industry working for Covance by Labcorp, a global CRO

You will be employed by Covance and work within our FSPx department 100% dedicated to one Sponsor

Permanent office based role in Kyiv, Ukraine or Saint Petersburg, Russia

Entry level role, full training will be provided

Competitive salary and benefits package

For candidates that perform well, excellent opportunities to progress

At the time of starting their employment the successful candidate must have permission to work in the relevant country

Candidates must be fluent in English language and either Ukrainian or Russian (both verbal and written)

Discover new opportunities to grow your career as a Covance by Labcorp FSP Biostatistician 1. The position offers a strong support network, flexible working solutions and the opportunity to raise your profile in the industry. This is an incredibly exciting time to be joining Covance by Labcorp as we continue to grow and expand.

What is FSP?

At Covance by Labcorp, you can redefine what is possible and discover your extraordinary potential within our Functional Service Provider team (FSP).

As a Covance by Labcorp employee dedicated to an FSP project you will bring your specialized discipline to a core team working directly with one sponsor. Whether your specialization is in clinical monitoring, clinical project management, data management, biometrics or pharmacovigilance Covance by Labcorp has an FSP opportunity to match your area of expertise.

Each FSP offers a unique opportunity to be a part of the drug development cycle and see a product through to launch. We have multiple partnerships giving you the variety and the flexibility to stay with sponsors, try a new external secondment or work in house on Covance by Labcorp studies.

With the support of exceptional people and an energized purpose, you'll be empowered to own your career journey with dedicated mentoring, training and personalized development planning. Further information can be found at: <https://www.covance.com/services/functional-service-provision.html>
